DIRECTORS' REPORT

The Directors take pleasure in presenting the Un-Audited Condensed Interim Financial Statements for the Nine Months' ended March 31, 2025.

FINANCIAL RESULTS

During the period (July 2024– March 2025) the Company had overall consolidated revenue of Rs. 1,791 million as compared to Rs 1,637 million in corresponding period of last year (increased by 9%).

The car wheels sale was Rs. 818 million as compared to Rs. 553 million in the corresponding period of previous year (increased by 48%). Likewise, the Truck/Bus wheels sale went up from Rs.143 million to Rs. 412 million (increased by 188%). Contrary to this, the sale of Tractor wheels weakened and declined from Rs. 882 million to Rs. 480 million (decreased by 46%).

The Gross Profit improved by 15% reaching Rs.379.752 million as against Rs.329.038 million. The Company earned Net Profit after tax of Rs.205.235 million as against Rs. 163.392 million in the corresponding period of last year, increased by 26%.

The increase in Gross Profit and Net Profit is mainly due to surge in the production and sale of car wheels and truck/bus wheels segments. The increase is due to uplift in the overall automobile sales due to (i) stable exchange rates (ii) declining interest rates (iii) increasing remittances (iV) lower inflation (v) attractive auto financing schemes by banks and (vi) improving macroeconomic environment. However, the production and sale of tractor wheels witnessed drop due to depressed tractors sales amid low purchasing power of the farmers. The substantial rise in other income is primarily from profit on investment of surplus funds in the government treasury bills, capital gain on listed securities/shares and reversal of prior year liabilities no longer payable.

There are no significant changes in Contingencies and Commitments, as disclosed in Note 27 of the Financial Statements for the year ended June 30, 2024.

FUTURE OUTLOOK

Positive sales growth momentum continues and it is expected that auto sales stage a significant recovery in the financial year'25 (FY 25), owing to attractive car financing schemes, introduction of new variants & models and revival of domestic demand amid falling interest rates. Additionally, the trucks sales volumes would witness an increase due to axle load implementation.

The management being conscious of the challenges that lie ahead is continuously evolving strategies and adopting measures to meet future challenges and to maintain business growth.
